

Mental Health and Wellbeing Workshop

Pupils in Year 3 to 6 were treated to an interactive and engaging workshop about how to look after their mental health and wellbeing. Children were taught the acronym 'Get Calm' - Giving, Connected, Active, Learning and Mindful - and went to different stations to focus on each aspect of the 'Five Ways to Wellbeing'. The children went away with a renewed understanding of strategies they can use to ensure their mental health.

Keep up-to-date with all our activities by following us on:

The King's Coronation

Kew College Prep started the King Charles III's Coronation Celebrations off with a bang! Despite the early rain shower, the whole school community decked out in red, white and blue came together for a picnic in the playground. Groups came up to have photographs on our own Royal balcony and the whole school participated in a 'through the decades' dance masterclass led by our incredible dance teacher Mr Roy. Classroom activities in the afternoon ended a fun day of commemorating this historic event.

Teddy Bear's Picnic

The sun shone for our Reception children as they enjoyed a charity Teddy Bear's Picnic in the greenery of the Priory field. Overall, the children raised over £121.50 for Four Paws, a global animal welfare charity. Well done Reception!

Year 6

Enterprise Awards

This year's judges were very impressed with the high standard of presentations for the Enterprise programme. After much deliberation, the judges decided that the Australian Animals team was the clear winner. The children showed a clear understanding of the Profit Pie and had very consistent branding throughout. Thanks to the generosity of the school community, this year's Enterprise Fair raised a staggering £830 for Skylarks, a local charity that provides activities and therapies for children with disabilities and additional needs. The team who made the most profit, by a whisker, was Wonka's Delight, with their sweet wrapper keyrings, Oompa Loompa pompom toys and chocolate cookies. Well done to all our Year 6 young entrepreneurs!

Maths Challenge Winners!

The Year 5 and 6 children who achieved high scores in the November Primary Maths Challenge were invited to participate in a special 'Bonus Round' in February. In early May, the school was notified that a total of 23 Kew College Prep children earned certificates. Eleven children scored at least 23 out of the maximum 25 points to attain a gold certificate and six children achieved full marks! This is a remarkable achievement as only 67 children from schools across the country achieved full marks. Huge congratulations to all our winners!!!

Book Day

Book Day was a roaring success and the children had a thoroughly wonderful day with many fun-filled activities. Our Junior House was visited by the engaging poet James Carter, who ran both a Key Stage 2 assembly and a poetry workshop with the children; they also took part in a workshop run by drama company, West End in Schools, who brought T.S. Eliot's poem, Rum Tum Tugger, to life. In the Infant House, Mini Grey and Robert Tregoning regaled the pupils with their stories and illustrations. They also had numerous special visitors to the classroom, including the fabulous Mrs Tabor and the older children for some buddy-reading. Our visitors were so impressed with the children for their impeccable manners and their genuine love of reading.
