

Year 1 Visit Kew Gardens

Year 1 enjoyed a wonderful trip to Kew Gardens recently. They started with a science workshop where they transformed into 'Kew meteorologists' and became experts on understanding how to measure weather, describe different weathers and identify the changes in the seasons. The children explored the beautiful gardens and got to choose different plants and flowers to add to an art collage which they brought home!

Cecil Court Care Home Performance

It is never too early to spread some Christmas cheer! On 29th November, our middle school choir performed at our local care home and cheered up the elderly residents with an array of classic Christmas songs. They sang with beautiful actions and the residents were incredibly grateful for the performance which brightened up their afternoon!

Anti-Bullying Week

School was a hive of activity for Anti-Bullying Week! We kicked off by wearing odd socks to celebrate our differences. The children all had a PSHE lesson around the topic of bullying; ranging from looking at what a bystander is, to how we can challenge stereotypes. All children also attended an assembly where we talked about how it is everyone's duty to stand up to bullies and to 'make noise'!

Year 3 Remembrance Assembly

During November, the school hosted several events to mark Remembrance Day, including an assembly led by Year 3. The pupils confidently spoke about the meaning and importance of Remembrance Day. Wreaths created across all Infant House classes were laid and we held a minute of silence following the presentation. The Year 3 children worked hard and showed great resilience to lead their first assembly.

Year 4 Fundraising for SPEAR

Year 4 put on a fantastic cake and toy sale to raise money for local charity SPEAR, which supports homeless people. The children worked tirelessly to make as much money as possible for this wonderful cause. The sale was supported by our Year 6 charity leaders and our dedicated Year 4 parents who spent their weekend baking! Thanks to all of these efforts, we raised a whopping £347.82 for SPEAR!

Year 5 Trip to Tower Bridge

Year 5 recently visited Tower Bridge to learn about the forces at play and how the bridge was raised. The children enjoyed becoming engineers and applying their scientific knowledge. They designed some amazing bridges and learnt about the history of the bridge. They asked insightful questions and worked as a team to construct a sturdy and robust bridge.
